Subject: Label Amendment – Supplemental Label to Cover Revisions to Warm Season  
Grass Application Rates  
Product Name: Quali-Pro 2DQ  
EPA Registration Number: 53883-334  
Application Date: 01/22/2016  
Decision Number: 513466

Dear Ms. Bosarge:

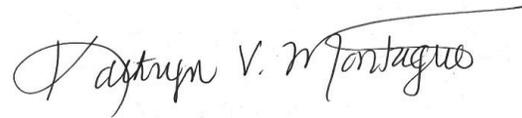

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them. A stamped copy of your labeling is enclosed for your records.

This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Terri Stowe at (703) 305-6117 or by email at [stowe.terri@epa.gov](mailto:stowe.terri@epa.gov).

Sincerely,

A handwritten signature in black ink that reads "Kathryn V. Montague". The signature is written in a cursive style with a long horizontal flourish extending to the right.

# SUPPLEMENTAL LABEL

**ACCEPTED**

06/17/2016

Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 53883-334

## Quali-Pro<sup>®</sup> 2DQ

Herbicide

EPA Reg. No. 53883-334

### Warm Season Grass Applications

This supplemental label expires January 31, 2018, and must not be used or distributed after this date.

#### Active Ingredients

*Dimethylamine Salt of 2,4-Dichlorophenoxyacetic acid.....	40.0%
**Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid) .....	4.21%
*** Quinclorac: 3,7-dichloro-8-quinolinecarboxylic acid.....	3.30%
<b>Other Ingredients</b> .....	<u>52.49%</u>
<b>Total</b>	100.0%

Contains:

\*3.20 lbs. 2,4-Dichlorophenoxyacetic acid per gallon or 33.22%.

\*\*0.34 lbs. 3,6-dichloro-o-anisic acid per gallon or 3.50%.

\*\*\*0.32 lbs. 3,7-dichloro-8-quinolinecarboxylic acid or 3.30%

**KEEP OUT OF REACH OF CHILDREN  
DANGER - PELIGRO**

It is violation of federal law to use this product in a manner inconsistent with its labeling.

### DIRECTIONS FOR USE

- The supplemental labeling and the entire Quali-Pro<sup>®</sup> 2DQ container label, EPA Reg. No. 53883-334 must be in possession of the user at the time of application.
- Read the label affixed to the container for Quali-Pro<sup>®</sup> 2DQ before applying.
- Use of Quali-Pro<sup>®</sup> 2DQ according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Quali-Pro<sup>®</sup> 2DQ.

### Use Directions

**TURF, ORNAMENTAL** (golf courses, cemeteries, parks, sports fields, turfgrass, lawns, and other grass areas)

**AND**

**TURF** (grown for seed or sod)

SITE	USE RATE (FLUID OUNCES)	SPRAY VOLUME (GALLONS)	USE RATE (PINTS)	SPRAY VOLUME (GALLONS)
	PER 1000 SQUARE FEET		PER ACRE	
Bahiagrass Bermudagrass, Common Bermudagrass, Hybrid St. Augustinegrass Centipedegrass Zoysiagrass	0.37 to 0.9	1 to 5	1 to 2.5	40 to 220

**Control Solutions, Inc.**

5903 Genoa Red Bluff, Pasadena, TX 77507

**USE DIRECTIONS:**

**All grasses:** Use reduced rates if the grass is stressed from heat or drought.

**Warm season grasses:** Use reduced rates on warm season grass breaking winter dormancy and early green-up period in the spring. At this stage of growth some temporary discoloration may occur.

**If bermudagrass is dormant:** Up to 3 pints per acre may be used. Some hybrid bermudagrasses may be sensitive to this product. Contact your local extension service weed control specialist.

**USE RESTRICTIONS:**

- Maximum of 2 applications per year with a minimum 30 day interval between applications.
- Do not apply more than 3.75 pints per acre per year (1.5 lbs. 2,4-D acid)

EQUIPMENT	APPLICATION	USE RATE		USE DIRECTIONS
		FLUID OUNCES PER 1000 SQUARE FEET	PINTS PER ACRE	
Controlled Droplet Applicators (CDA), Atomizers, and Spinning Disk Applicators	Listed warm-season grasses	0.37 to 0.9	1 to 2.5	Use in sufficient water to assure coverage (1 to 4 gallons of water per acre is normal for this type of equipment), and follow CDA spray instructions for cool-season grasses. Use reduced rates if grass is stressed from heat, drought, etc.
